

Maintenance

# SYNTEGON

PROCESSING & PACKAGING

## Machine Health Check – limited offer.

### Prevention is better than cure.

Knowing the status of your liquid food packaging machine can help to identify any irregularities before they can worsen, show symptoms, or pose a significant risk to food safety. Identifying issues facilitates prompt treatment, which can increase productivity and help you save maintenance costs.

LIMITED OFFER

# 3,000 €

1-day Syntegon expert team on-site\*

\*3,000 € per day and machine, travel and accommodation included. Offer valid until (due date for last inspection): May 31, 2023

Several teams led by highly experienced service technicians will be on tour soon and could stop by your production site for a Machine Health Check of your equipment.

The outcome of this visit is a qualified inspection report which includes a status quo of the machine performance and a check of the wear parts. The Syntegon expert team will recommend specific actions to increase productivity and ensure smooth production.

### YOUR BENEFITS

- ❑ Check machine status and performance
- ❑ Check condition of wear parts
- ❑ Receive an individual inspection report
- ❑ Learn about concrete actions to increase the health of your machine

# The inspection is carried out by a team of experts from Syntegon.

## DELIVERY CONTENTS
